DYSPEPSIA,
DR. HUTCHINGS'
VEGETABLE DYSPEPSIA BITTERS.

THE MOST POPULAR FAMILY MEDICINE OF THE AGE!

Used by Physicians of High standing.

These BITTERS remove all morbid secretions, purify the blood, give great tone and vigor to the digestive organs, fortify the system against all future disease, can be taken with safety, at any time debilitating the patient—being grateful to the most delicate stomach and remarkable for their cheering invigorating, strengthening, and restorative properties, and an invaluable and sure remedy for the

DYSPEPSIA IN ITS WORST FORM.

Also, liver complaints, fever and ague, fevers, costiveness, tiltness, disorders of the skin, liver and kidneys, loss of appetite, low spirits, nervous headache, giddiness, palpitation of the heart, sinking and fullness of weight at the stomach, and all other diseases caused by an impure state of the blood, liver, &c., which tend to debilitate and weaken the system.

Females who suffer from a morbid and unnatural condition, will find this medicine of

INESTIMABLE VALUE

In all cases of General Debility this Medicine *ACTS LIKE A CHARM.*

The following certificate is from an old gentleman who readily acknowledges the Bitters the only thing that keeps him alive.

Dear Sir:—I hereby offer you a willing testimony to your valuable Bitters; I hardly know where to find words to thank you for the good it has done me. I would not be without it on any account, and honestly believe that it is the only thing that keeps me alive.

I have recommended it to many of my friends; they all speak of it in the highest terms, which it richly deserves.

You are at liberty to refer any one to me as regards your valuable compound.

WALTER SIMONSON,
63 Fourth street, Williamsburg.

Read the following from an eminent physician:

The undersigned being acquainted with some of the ingredients of Hutchings' Vegetable Dyspepsia Bitters, and having used it for some time in his practice with every desired effect, he recommends this medicine from the certainty of its effect, and gives it a preference over all preparations in medicine for that distressing complaint, Dyspepsia

T. HARDENBERGH, M. D.,
No. 1 Beach street, N. Y.

From Luther A. Wyman, Esq., late President of New York Musical Society, now of Brooklyn:

The undersigned was afflicted with Dyspepsia of the worst form for one year and a half, during a greater portion of which time he made use of all remedies, but suffered the disease to take care of itself, until he was recommended to try Hutchings' Dyspepsia Bitters; he very soon derived benefit from the use of a few bottles of this medicine and now considers himself entirely well

The undersigned has every confidence in the efficiency of Hutching's Bitters for the cure of this troublesome and dangerous complaint, and he has no hesitation in recommending it as a most valuable medicine.

L. L. WYMAN,
N. York, Sept. 3, 1849 38 Burling Slip.

The following certificate is from Mr. Brady, the celebrated Daguerreotypist:

Having been afflicted severely with Dyspepsia, together with extreme weakness he was advised to take Hutchings' Dyspepsia Bitters, and have every reason to believe it has perfectly cured me. I have felt no symptoms of a return of the disease and believe from the effect it had on me that it will cure the worst cases of Dyspepsia.

M. B. BRADY,
No. 205 Broadway, N. Y.

The Proprietor of this medicine has received many other certificates of cures, equally remarkable, of the various diseases for which this preparation is applicable; but the above are deemed necessary to satisfy any unprejudiced mind of its value and superiority above all other preparations.

Principal office, 122 Fulton-st., N. Y., up stairs.

Price, 50 cents per bottle, or 6 bottles for $2,50

HUTCHINGS' VEGETABLE DYSPEPSIA BITTERS.—THE PROOF! THE PROOF!!—An array of facts is worth a peck of theory; and the unanimous and conclusive facts that cluster around this incomparable preparation, establishing its value as a tonic and restorative, are such as would prevent incredulity itself from questioning its efficacy. In all cases of disease of the stomach, whether acute or chronic, it may be recommended for its soothing, cordial and renovating influence. Dyspepsia, heartburn, loss of appetite, uneasiness in the epigastric region, fluttering of the heart, dimness of sight, swimming in the head, hypochondria, flatulency, nausea, nervous tremors, relaxation and debility, &c., are relieved by the Bitters in a very short space of time; and by perseverance in their use never fails to work a thorough cure.

LITTELL'S LIVING AGE,

E. LITTELL & Co., cor. of Tremont and Bromfield streets, Boston.

This work is conducted in the spirit of Liter's Museum of Foreign Literature, (which was favorably received by the public for twenty years,) but as it is twice as large, and appears weekly, the editor not only gives spirit and freshness but by many things which were excluded by a month's delay, but which the extension of time and gathering a greater and more attractive variety, is able so to increase the solid and substantial part of this literary, historical, and political harvest, as fully to satisfy the wants of the American reader.

The elaborate and scathing Essays of the Edinburgh, Quarterly, and other Reviews, Blackwood's and the critical essays from Fraser's, Tait's, and the Dublin University, New Monthly, Dublin, Ainsworth's, Hood's and Sharpe's Magazines, and of Chambers' Edinburgh Journal. He does not consider it boastful to claim for it, what it wished to from the first, that it shall be, in its good time, worthy of the name of the Living Age of the Times.

The steamship has brought us from Europe, Asia, and Africa, an amount of valuable matter, which this work alone has made available to the reading public of America. Many of the best articles in the Foreign Quarterly Review, and in the Edinburgh Review, have been given in this work, and in no other publication in America. Every important article in the Edinburgh Review, Quarterly Review, Blackwood's Magazine, and Fraser's Magazine, has been given in this work, and in no other publication in America. This not only because of their intrinsic value, but because the nations seem to be learning, through a rapid process of change, to know a new state of things, which the merely political people cannot recognize or foresee.

Geographical Discoveries, the progress of Civilization, (which is extending over the whole world,) and Voyages and Travels, should furnish matter for this department, in general, the editor systematically and very fully acquaints his readers with the great department of Foreign affairs, without neglecting our own.

While the Living Age is desirable to all who seek the archives of the rapid progress of the movement to Statesmen, Divines, Lawyers, and Physicians—to men of leisure and men of business, it will be found to be equally attractive and useful to their wives and children. It is indispensable to every well-informed Family. We say indispensable, because in this day of excitement it is not possible to guard against the influx of what is bad in taste and vicious in morals, in any other way than by furnishing a sufficient supply of a healthy character. The mental and moral appetite must be gratified.

By "winnowing the wheat from the chaff," by providing abundantly for the imagination, and by a large collection of Biography, Voyages and Travels, History, and more solid matter, a work is produced, which is adapted for universal popularity, and to raise the standard of public taste.

This excellent work is published every Saturday, by E. LITTELL & Co., Boston, who supply orders by mail from all parts of the country. Remit any sum to them, and they will send the work to that amount. Each number makes a handsome pamphlet of 48 pages double royal octavo. Price, 12 1-2 cts.—or by the year, six dollars. We add to our own recommendation, what our readers will value infinitely more, a letter from the late Ex-President J. Q. Adams:—

"WASHINGTON, 27th December, 1845.

Of all the Periodical Journals devoted to Literature and Science which abound in Europe and this country, this has appeared to me to be the most useful. It contains indeed the exposition only of the current literature of the English language, but this by its immense extent and comprehension includes a portraiture of the human mind in the utmost expression of the present age.

J. Q. ADAMS."

NEW, IMPORTANT & VALUABLE MEDICINE

POTTER'S LINIMENT,

Or, External Remedy.!

RHEUMATISM CAN BE CURED!

THIS invaluable remedy, which has entirely cured hundreds in this vicinity of the most excruciating of all complaints, Rheumatism, is now offered to the public with an entire confidence that it will do all that is promised for it. As a safe, certain and speedy medicine for Rheumatism, Lameness, Tic Doloreaux, Headache, &c., it never has been and it never can be surpassed. Let those who doubt this, call upon the proprietor, who will satisfy them as one of the perfect truth of these statements. The External Remedy is itself a new medicine, and never was used in this country until introduced by the proprietor. As an alleviator of that class of diseases which it professes to treat, it is destined to win immense public favor. To suffer with Rheumatism when relief is at hand, is the height of folly.

Whig Nominations

For Governor.
JOSIAH CHAPIN,
of Providence.

For Lieutenant Governor.
ROWSE BABCOCK,
of Westerly.

For Secretary of State.
CHRISTOPHER E. ROBBINS,
of Providence.

For Attorney General.
JOSEPH M. BLAKE,
of Bristol.

For General Treasurer.
SAMUEL A. PARKER,
of Newport.

For Members of Congress.
Eastern District.
GEORGE G. KING,
of Newport.
Western District.
CHARLES JACKSON,
of Scituate.

"To your tents, O Israel!"—This is the war-cry among the locofocos, since the nominations were made. In this town they are drumming up all their forces. Daniel Brown and some few others of the older sachems are freely offering absolution to those who have occasionally voted against them,—since the Dorr rebellion, and manifest a willingness to recieve them again to the Virgin purity of the bosom of the Democracy. They are making earnest overtures to Messrs. R. R. Carr, William G. Hammond and others who have seceded and gone to the Free Soil Party. Daniel is the Missionary at large in this vicinity, and is busily exercising all his foxy ingenuity, with a zeal quite equal to the days when he used to propose to Sam Dunn to have the Town meetings, on Block Island, opened with prayer, while he, Daniel, attended to the *farms*, behind the Town House, in the shape of *refreshments*, himself not being a member of the Temperance Society.

Daniel had a private and rather *confi-* a few days since; among other things he said that he thought they could bleed Mr. Lawrence rather freely, during the canvass, and that that was the main object in nominating him, as their Finances had been rather severely taxed in paying up the Registry taxes. He said also that they should bleed Gen. Wilbur some, although they did not expect to get a great deal out of him, as the Gen. always flinched badly when the political lancet was put into him too deeply, except when *blood* was required, to secure or retain the Collectorship,—and then he made but little remonstrance. We can assure our opponents that if they call *too often*, the General will exclaim, in the language of the late Thomas Cory, the Democratic Senator from Portsmouth, under the Old Charter. "*I move no more to move he added.*" General Wilbur does not understand this doctrine of paying so much money for mere *glory and empty reputation*; he likes to see a good-deal come in and but little go out, in these political matters.

Daniel thinks that Mr. Allen will *bleed* very generously, as he will be willing to pay an exceedingly liberal price for the title of *Governor*. However, he has not got money enough to purchase it this time.

While the locofoco State Convention was in session in Providence, Thursday evening, there was a sudden cracking sound, as it some of the timbers of the building were giving way; the "unterrified democracy," the men of stout hearts and strong hands," as the Post-Boy organ ironically terms them were badly alarmed and many of them rushed into the street, and remained there until it was ascertained that there was no danger,—just as they did at the time of the attack on the Arsenal, in 1842. We regard this as decidedly ominous of the tremendous and most fearful cracking which will stand the case of the same unterrified Democracy, on the second of April, when the Whig forces will come down on them, like a thundering avalanche, at the ballot box. The sound logic of William Beach Lawrence, and the inspiring eloquence of Welcome B. Sayles will not then be able to calm and console them, as it did at the Convention, when the warning note of danger was first sounded.

☞ The locofocos in this part of the State, are a good deal troubled since it has been shown that Mr. Lawrence is not eligible to the office of Lieut. Governor. They probably made the nomination in a hurry, about the time the timber cracked, and did not stop to reflect upon his eligibility. Will they run Mr. Lawrence, notwithstanding this or will they put up some other man who is a citizen of Rhode Island?

We publish the following communication by request. We have no fancy for mongrel tickets. The only true secret of success for any party is to stand firmly by their party nominations, no matter who the candidates may be.—Men often have their preferences, and would like to see their particular personal friends nominated to offices; but after a ticket has been made by a Convention, it is the duty of every member of the party to give it a most cheerful and hearty support. As a party man and as the editor of a party paper, we ever have and ever shall warmly support the regular nominations of the party, be the candidates who they may; although we may sometimes fight hard to prevent their nomination; after they are nominated, our adherence to party principles will always compel us to support them. Without this determination, we repeat, no party can expect to succeed; and if all those claiming to be Whigs and who were elected to the Legislature as Whigs, had strictly adhered to this rule, we should now have had an unquestionably sound Whig in the U. S. Senate, in the place of Gen. James.

But we give the communication:—

W. H. Cranston, Esq.

Dear Sir:—

A number of your subscribers, citizens of Newport, not feeling quite satisfied with the nominations of either party, intend to support the following ticket for General Officers. You would confer a favor by giving it an insertion in your paper:—

Independent Ticket.

For Governor, Philip Allen, of Providence.

For Lieut. Governor, Rowse Babcock, of Westerly.

For Secretary of State, Christopher E Robbins, of Providence.

For Attorney General, William P Sheffield, of Tiverton.

For General Treasurer, Stanton Peckham of Newport.

The House went into Committee of the Whole on the State of the Union and took up the Fortification Bill.

The great objection to smart children is, that when they commence having whiskers, they leave off brains. Boys that are philosophers at six years of age are generally block-heads at twenty-one. By forcing children, you get so much into their heads that they become cracked in order to hold it.

The first person who carried the news of the accident of the steamer Atlantic to London was Mr. Abbot Lawrence, Jr., one of the passengers, who arrived at the legation, to the utter astonishment of all in the house, at midnight on the 23d.

Mr Loutze, the American Artist, has written to New York, stating that he has sold his great picture of Washington crossing the Delaware to Messrs. Goupil & Co., the print-sellers, for $7000. It is the intention of the proprietors to have a superb engraving of the picture executed, and also to exhibit the painting throughout the United States.

☞ Among the reasons assigned for Lamartine's having declined, after three interviews with Louis Napoleon, to become Minister, is, that he has engaged to furnish the booksellers with two volumes every month of his writings, under very heavy penalties, and that he [illegible] to return from the East [illegible] him to disengage one of his estates near Macon from a heavy mortgage.

Executive Department, Feb. 19, 1851

To the Senate of the United States:

I have received the resolution of the Senate of the 18th inst., requesting me to lay before that body, if not incompatible with the public interest, any information I may possess, in regard to an alleged recent case of a forcible resistance to the execution of the laws of the United States in the city of Boston, and to communicate to the Senate, under the above condition, what measures I have adopted to meet the occurrence, and whether in my opinion, any additional legislation is necessary to meet the exigency of the case, and to more rigorously execute existing laws. The public newspapers contain an affidavit of Patrick Kelley, a Deputy Marshal for the District of Massachusetts, setting forth the circumstances of the case, a copy of which affidavit is herewith communicated. Private and unofficial communications concur in establishing the main facts of this account; but no satisfactory official information has as yet been received, and in some important respects the accuracy of the accounts has been denied by persons whom it implicates. Nothing could be more unexpected than that such a gross violation of law, such a high-handed contempt of the authority of the United States, should be perpetrated by a band of lawless confederates at noon day, in the city of Boston and in the very Temple of Justice. I regard this flagitious proceeding as being a surprise, not unattended by some degree of negligence, nor do I doubt that if any such act of violence had been apprehended, thousands of the good citizens of Boston would have presented themselves voluntarily and promptly to prevent it; but the danger does not seem to have been timely made known or duly appreciated by those who were concerned in the execution of the process in a community distinguished for its love of order and respect for the laws—among a People whose sentiment is Liberty and Law, and not Liberty without Law nor above the Law. Such an outrage could only be the result of sudden violence, unhappily too much unprepared for to be successfully resisted. It would be melancholy, indeed, if we were obliged to regard this outbreak against the constitutional and legal authority of the Government as proceeding from the general feeling of the people on a spot which is proverbially called the Cradle of American Liberty.—Such, undoubtedly is not the fact; it violates, without question, the general sentiment of the people of Boston, and a vast majority of the whole people of Massachusetts, as much as it violates the law, defies the authority of the Government and disgraces those concerned in it, their aiders and abettors. It is, nevertheless, my duty to lay before the [illegible] to its resolution, some nected with the subject. A resolution of Congress, of September 23, 1789, declared that it be recommended to the Legislatures of the several States to pass laws making it expressly the duty of the Keepers of their jails, to receive and safe keep therein, all prisoners committed under the authority of the United States, until they shall be discharged by due course of the laws thereof under the like penalties, as in the case of prisoners committed under the authority of such States, respectively, the United States to pay for the use and keeping of such jails at the rate of 50 cents per month for each prisoner that shall, under their authority be committed thereto, during the time such prisoners shall be therein confined, and also to support such of said prisoners as shall be committed for offences. A further resolution of Congress, of the 3d of March, 1791, provides that,

Whereas, Congress did, by a resolution of the 23d day of September, 1789, recommend to the several States to pass laws, making it expressly the duty of their keepers of their jails, to receive and safe keep therein, all prisoners committed under the authority of the United States, in order therefore to insure the Administration of justice.

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That in case any State shall not have complied with the said recommendation, the Marshal in such State, under the direction of the Judge of the District, be authorized to hire a convenient place, to serve as a temporary Jail, and to make the necessary provision for the safe keeping of prisoners committed under the authority of the United States, until permanent provision shall be made by Law for that purpose, and the said Marshal shall be allowed his reasonable expenses incurred for the above purposes, to be paid out of the Treasury of the United States. And a Resolution of Congress, of March 3d, 1821, provides that where any State or States, having complied with the recommendation of Congress in the Resolution of the 23d day of September, 1789, shall have withdrawn, or shall hereafter withdraw, either in whole or in part, the use of their Jails for prisoners committed under the authority of the United States, The Marshal, in such State or States, under the direction of the Judge of the District, shall be and is hereby authorized and required to hire a convenient place, to serve as a temporary Jail, and to make the necessary provision for the safe keeping of prisoners committed under the authority of the United States, until a permanent provision shall be made for said purpose; and the said Marshal shall be allowed his reasonable expenses incurred for the above purposes, to be paid out of the Treasury of the United States. These various provisions of law remain unrepealed by the laws of Massachusetts, as that law stood before the Act of the Legislature of that State of the 4th of March, 1843. The Common Jails in the respective Counties were to be used [illegible] by the authority of the United States, as well as of the Courts and Magistrates of the State. But these provisions were abrogated and repealed by the Act of the Legislature of Massachusetts, of the 20th March, 1843. That Act declares that no Judge of any Court of Record of this Commonwealth and no Justice of the Peace shall hereafter take cognizance or grant certificates in cases that may arise under the 3d section of an act of Congress passed February 12th, 1793, entitled an act respecting fugitives and [illegible] escaping from the service of their master to any person, who claims any other person as a fugitive slave within the jurisdiction of the Commonwealth, and it further declares that no Sheriff, Deputy Sheriff, Coroner, Constable, Jailor, or other officer of this Commonwealth shall hereafter arrest or detain or aid in the arrest, detention or imprisonment in any Jail or other building belonging to this Commonwealth or to any County, City, or Town thereof, of any person for the reason that he is claimed as a Fugitive Slave, and it further declares that any Justice of the Peace, Sheriff, Deputy Sheriff, Coroner, Constable, or Jailor who shall offend against the provisions of this Law, by in any way acting directly or indirectly under the power conferred by the third section of the act of Congress aforementioned, shall forfeit a sum not exceeding one thousand dollars for every such offence for the use of the County where said offence is committed, or shall be subject to imprisonment not exceeding one year in the County Jail.

This Law, it is obvious had two objects, the first was, to make it a penal offense in all offices and Magistrates of the Commonwealth to exercise the powers conferred on them by the act of Congress of the 12th of February 1793, entitled an act respecting fugitives from justice, and persons escaping from the service of their masters and which powers they were fully competent to perform up to the time of this inhibition and penal enactment; second, to refuse the use of the jails of the State for the retention of any person claimed as a Fugitive Slave.

It is deeply to be lamented that the purpose of these enactments is quite apparent. It was to prevent, so far as the Legislature of the State could prevent, the Laws of Congress passed for the purpose of carrying into effect that article of the Constitution of the United States, which declares that no person held to service or labor in one State under the Laws thereof escaping into another, shall in consequence of any Law or regulation therein be discharged from such service or labor, but shall be delivered up on claim of the party to whom such service or labor may be due, from being carried into effect.—But these acts of State Legislation, although they may cause embarrassments and create expense, cannot derogate either from the duty or the authority of Congress to carry out freely and fairly the plain and imperative constitutional provision for the delivery of persons bound in labor in one State and escaping into another. To the party to whom such labor may be due, it is quite clear 3d March, 1821, the Marshal of the United States in any State in which the use of the jails of the State has been withdrawn in whole or in part from the purpose of the detention of persons committed under the authority of the United States, is not only empowered but expressly required, under the direction of the Judge of the District to hire a convenient place for the safe keeping of prisoners committed under authority of the United States. It will be seen from papers accompanying this communication, that the attention of the Marshal of Massachusetts was distinctly called to this provision of the law by a letter from the Secretary of the Navy of the date of October 28th last. There is no official information that the Marshal has provided any such place for the confinement of his prisoners. If he has not, it is to be regretted that this power was not exercised by the Marshal under the direction of the District Judge immediately on the passage of the act of the Legislature of Massachusetts, of the 20th of March, 1843, and especially that it was not exercised on the passage of the Fugitive Slave Law of the last session, or when the attention of the Marshal was afterwards particularly drawn to that. It is true that the escape from the Deputy Marshals in this case was not owing to the want of a prison or place of confinement, but still it is easy to see how the prisoner could have been safely and conveniently detained during an adjournment of the hearing for some days without such place of confinement. If it shall appear that no such place has been obtained, directions to the Marshal will be given to lose no time in the discharge of this duty.

Concluded to morrow.

AYER'S CHERRY PECTORAL.
For the Cure of
COUGHS, COLDS,
HOARSENESS, BRONCHITIS, WHOOPING-COUGH AND CONSUMPTION.

In offering to the community this justly celebrated and highly efficacious remedy for diseases of the throat and lungs, we do not wish to trifle with the lives or health of the afflicted, but frankly to lay before them the results of distinguished medical science, and of its success, from which they can judge for themselves. We sincerely pledge ourselves to have no will assertions or false statements of its efficacy, nor will we hold out any hope to suffering humanity which facts will not warrant.

Many *proofs* are here given, and we solicit an inquiry from the public into the merits of the medicine, assured they will find them perfectly reliable, and the medicine worthy their best confidence and patronage.

FROM BENJ. SILLIMAN, M. D., L. L. D.,
Professor of Chemistry, Mineralogy, &c., Yale College, Member of the U. S. Hist. Soc. Phil. and Stat. Societies of America and Europe.

"I deem the CHERRY PECTORAL an admirable composition from some of the best articles in the Materia Medica, and a very effective remedy for the class of diseases it is intended to cure."

NEW HAVEN, CT., Nov 1, 1849.

PROFESSOR CLEAVELAND, of Bowdoin College, Maine.

Writes—"I have witnessed the effects of your "CHERRY PECTORAL" in my own family and that of my friends, and I feel almost satisfied to state in its favor that no medicine I have ever known has proved so eminently successful in curing diseases of the throats and lungs."

REV. DR. OSGOOD

Writes—"That he considers "CHERRY PECTORAL" the best medicine for Pulmonary Affections ever given to the public, and states that his daughter after being obliged to keep the room four months with a severe settled cough, accompanied by raising of blood, night sweats, and the attend ent symptoms of Consumption, commenced the use of the "CHERRY PECTORAL," and had completely recovered."

HEAR THE PATIENT.

Dr. Ayer—Dear Sir: For two years I was afflicted with a very severe cough, accompanied by spitting of blood and profuse night sweats. By the advice of my attending physician I was induced to use your CHERRY PECTORAL, and I continued to do so till I considered myself cured, and ascribe the effect to your preparation.

JAMES RANDALL,
Hampden ss. Springfield, Nov. 27, 1848.

This day appeared the above James Randall, and pronounced the above statement true in every respect. LORENZO NORTON, Justice.

THE REMEDY THAT CURES.

PORTLAND, Me., Jan. 10, 1847.

Dr. Ayer: I have been long afflicted with Asthma which grew yearly worse until last Autumn, it brought on a cough which confined me to my chamber, and began to assume the alarming symptoms of Consumption. I had tried the best advice and the best medicine to no purpose, until I used your CHERRY PECTORAL, which has cured me, and you may well believe me, Gratefully yours, J. D. PHELPS.

If there is any value in the judgment of the wise, who speak from experience, there is a medicine worthy of the public confidence.

THE GREAT

RENOVATOR OF THE BLOOD AND DISEASE EXTERMINATOR.

EXPERIENCE is the Basis of all Real Knowledge.—To SEE and to FEEL is to KNOW, and that which is seen and known most not be contradicted. When Galileo announced the discovery of new planets, the Aristotelians said, "This is impossible!" Galileo replied, "Look through my telescope, and behold." The philosophers rejoined, "We will not look lest we should see them." There are a few people *now-a-days* so silly that they will not look at facts lest some prejudice should be disturbed. These persons are, however, not numerous, and their stupidity injures nobody but themselves. The character of Dr. S. P. Townsend's Compound Extract of Sarsaparilla rests upon universal experience alone. Without this *solid* foundation, it never could have attained the widespread popularity which it at present enjoys. Its value and medicinal efficacy being thus demonstrated by the experience of thousands, it is only necessary to say that science sanctions and verifies the verdict.

DR. JAMES R. CHILTON,

a PHYSICIAN and CHEMIST of the highest rank, superintends the compounding of this Sarsaparilla.

Dr. S. P. Townsend's Sarsaparilla has proved to the satisfaction of thousands, to be the GREAT PURIFIER of the BLOOD and FEMALE STRENGTHENER. It will not reduce the already debilitated, its TONIC ACTION being such as to STRENGTHEN, as well as to regulate the bowels.

HOME TESTIMONY.

SALT RHEUM,
OF MANY YEARS STANDING.

The following evidence of the efficacy of Dr. S. P. TOWNSEND'S EXTRACT OF SARSAPARILLA in Cutaneous Diseases, is well worthy the notice of those afflicted with such disagreeable eruptions:

NEW YORK, August 6, 1850.

Dr. S. P. TOWNSEND—Dear Sir: I am most happy to acknowledge that, after suffering for nearly nine years with the Salt Rheum in a very aggravated form, and being abandoned as incurable by several of our first physicians, I was finally persuaded to try your far-famed Sarsaparilla. The effects were soon perceptible, and when I had used ten bottles, to my great surprise I found myself not only cured of that most disagreeable and irritating disease, but my general health was so much improved that it astonished my family and friends. Since then I have advised others to make use of your Medicine, and have noticed its wonderful effects curing in numerous diseases, not altogether caused by a bad state of the blood.

Yours most respectfully,

Mrs. JANE SHAW, 105 Third Avenue.

P. S. You have my consent to publish the above; and it will give me great pleasure to state my case personally to any lady that is similarly afflicted.

COUGHS AND COLDS.

Dr. S. P. Townsend's Sarsaparilla contains just the qualities that are requisite in these cases. It acts as a mild alterative and expectorant, thus changing the action of the system, and enabling it to throw off the complaint. The number of instances in which Coughs and Colds have been cured by this preparation is immense.

BROOKLYN, June 13, 1850.

Dr. S. P. Townsend—Dear Sir: I was taken sick about a year ago, which was thought by many would result in Consumption. I had used "old Dr. Jacob Townsend's (as he is called) Sarsaparilla, which does me no good. I then tried yours, and am most happy to say it has entirely cured me. I am a clerk of Col. JAMES T. JACK, Esq., Counsellor at Law, Montague Hall, in this city.

Yours, &c.,

WILLIAM NEWTON SHEFFIELD.

DYSPEPSIA AND NERVOUS DEBILITY.

MESSRS NORRAND & BACON.

Gents:—Gratitude will no longer prevent my acknowledging to you how much I have been benefited by the use of Dr. S. P. Townsend's Sarsaparilla. For nearly a year I have been afflicted with Dyspepsia and Nervous Debility; I had become almost discouraged, as my physician's prescriptions were every day the same: "You require no medicine, but exercise in the open air, my good lady, or you will never get well." Feeling as I then did, this was not practicable. So I began, through the recommendation of Mrs. Carman, in Schenck st, to take the Dr. S. P. Townsend's Sarsaparilla. She said it would strengthen and give appetite, if nothing more. By her advice, sent $1 and obtained three bottles. Before I had taken all of the first bottle, began to feel stronger, and spirits much improved—began to go out more or less every day. I have not taken all of the third bottle, as I find a teaspoonful now to have more effect than two tablespoonfuls did at first. This, I have been told, is one of the great secrets of the success of your medicine; that instead of increasing, the dose is diminished. I am now enjoying better health than I have before for a year. As I am well known to many in your city as well as in Brooklyn, it might be to your interest to publish this, which you have my consent to do.

Yours, &c. MRS CAROLINE GRAHAM,

Music Teacher, Prospect street, Brooklyn.

BRANT'S INDIAN
PULMONARY BALSAM

cures very many of the worst etc. As marked and decided ...ASM of THE MOMENT CONSUMPTION—*real, undoubted cases of ulcerated and diseased* LUNGS—such HOPELESS cases as were never before cured by any other medicine. *So utterly hopeless* were some of the afflicted persons, as to LEAVE their friends and friends to be actual DYING. Some who had their burial clothes made, have been cured, and yet live; others, who it was said would not live another day, are now as well and hearty as they ever were.

HUNDREDS of these alarming and purifying virtues nearly as powerful and active as the preparation which we call

BRANT'S INDIAN PURIFYING EXTRACT.

THE BALSAM differs from the Extract, because it possesses *several indications which are peculiarly adapted to, and are more healthy necessary for, the cure of*

COUGHS AND CONSUMPTIONS,

and all Diseases of a *pulmonary nature*—such diseases as usually prove a fatal *victim* to every treatment, when day break the

Breast, Throat, Lungs, and Heart.

THE BALSAM HEALS AND CURES *Ulcers in the LUNGS*, and Medicine *internally*, as certainly and easily as the POWERING EXTRACT *cures* and heals ulcers *externally*. This Balsam cures MANY cases of *Coughs and Consumption* that, after all other remedies have *failed to do good*.

Thousands of Consumptions

and *Chronic Coughs* annually prove its *astonishing efficacy* in such diseases, and its unbounded curative power, and healthy, kind and *grateful*, in the following complaints and diseases, viz: *Spitting of Blood, Bleeding at the Lungs, Pain in the Breast and Side, Night Sweats, Nervous Complaints, Palpitation of the Heart, Cholera Infantum, Dysentery and Diarrhœa, Complaints in Children and Adults, and* FEMALE WEAKNESSES.

CONSUMPTION.

A DYING WOMAN CURED!

We come this case to prove the POWER TO SAVE LIFE which this BALSAM is said, even after the patient is *considered by physicians and friends to be in the last stages of disease*—actually dying—and, in this case, so far gone, that the SHROUD and BURIAL CLOTHES *were bought! For the particulars of this case, as also respectable and undoubted proof of all the communications and facts*, we refer to our PAMPHLETS.

THIS case was effected on Mrs. ZIBA DYKEMAN, of *Hillsdale, Columbia County, N. Y.* We can prove, beyond a doubt, *many others almost equally hopeless*, and *irreversible cases of Coughs and Consumptions CURED*, which were *pronounced incurable* by REGULAR PHYSICIANS.

A DOCTOR CURED!

DR. J. W. FRENCH, *of Hillsdale, Hillsdale county, Michigan*, about the 1st of January, 1849, wrote as follows: I have been in the regular practice of medicine in this place for nine years, but was obliged to quit the practice of my profession in consequence of ill health. I was so severely afflicted with a *Chronic Disease of the Lungs*, as to convince me that I HAD THE CONSUMPTION, past doubt. I coughed almost incessantly, night and day, and had severe pains and soreness in my chest, side, and breast. I tried the remedies recommended by the most skilful of the profession, all to no effect, excepting the nausea and debility caused by them. I was prejudiced against patent medicines, and have no faith now in them generally. But I was induced to try BRANDRETH'S INDIAN PULMONARY BALSAM; and I do here acknowledge, for the benefit of the afflicted or others, if any serve, that the effect of its use on me was the most prompt and salutary of any medicines I ever witnessed. The effect of it in my practice. *My cough was immediately relieved*, and in about eight or ten days I was free from cough, soreness of the chest, and pain, and now consider myself *PERMANENTLY CURED*.

Dr. French is now a respectable druggist at Hillsdale.

FITS, FITS, FITS.

MESSRS. J. K. LIPPINCOTT & SON, respectable merchants at *Hilltown, Bucks county, Pennsylvania*, wrote to us, May 17, 1849, stating among other BENEFITS which had been derived from the use of BRANT'S PULMONARY BALSAM, that one of their customers had just informed them that her child, which had been subject to FITS *for several years*, was cured by the use of BRANT'S *BALSAM*.

Would soon be in a Grave.

MR. WILLIAM D. JENNINGS, a merchant at *Pierpont Centre, Ashtabula county, Ohio*, wrote to us, October 2, 1848, and related a case of CONSUMPTION which the use of *Brant's INDIAN PULMONARY BALSAM* had effected in Mr. WILLIAM CROCKET, of an adjoining town. He said Mr. Crocket had sought relief from the best physicians and numerous medicines, without some, for the first kind of that terrible disease, *Consumption*, had taken fast hold on his vitals, and was so destroying and debilitating his body, that he was a mere skeleton. He was *given up by his physicians and all friends, as one who would soon be a lifeless grave*. But even to this last remarkably strange and marvellous as it may seem, yet it is true, that the use of *only three bottles* of BRANT'S INDIAN PULMONARY BALSAM has snatched the head of the destroyer, and restored Mr. Crocket to health, and he is now a *healthy, hearty, robust man!*

S. D. DANN, Esq., *merchant and postmaster at Jefferson*, an adjoining town, wrote us to inform about the same time, and stated that he was acquainted with Mr. CROCKET, and *testified to his cure, and all the above recited facts*.

Could not Live a Day longer!

MESSRS. E. B. CALDWELL & CO., of *East Cincinnati, Ohio*, Cincinnati Co., N. Y., respectable druggists, wrote to us: "We have just heard, through Mr. Williamson, a respectable citizen of this place, of an important cure of *Consumption*, on the wife of an acquaintance of his, who resides in the town of Palermo, in this county. She had been long confined to her bed, and was so dangerously diseased, that her friends believed it impossible for her to live *more than ONE DAY LONGER*. But, when all other hope utterly failed, *SAM*, and the medical effect has raised her from a *DYING BED*, so that she is now *able to sit up and attending to her domestic household affairs and duties*. She acknowledges, and it is very evident, that she is indebted to BRANDRETH'S BALSAM and BRANDRETH'S PILLS for her recovery from a long, severe, and dangerous sickness, and her grand delight is to consider that medicine invaluable."

RAISED FROM THE GRAVE.

MESSRS. PRATT & FOSTER, *merchants, of West Cornwall, Conn.*, told *BRANT'S BALSAM* had effected cures more than other combined medicine could be sold there; that it *had raised some as if from the GRAVE*—some that physicians particularly, were so far gone, that his physician told him it was useless to take any more medicine. He then, when no *hope was left*, began to take BRANDRETH'S BALSAM—cor... WELL—and is now *as well as ever he was!*

Many Consumptions Cured.

MR. S. H. CLARK, merchant, Clyde, Wayne county, N. Y., wrote to informant that BRANT'S PULMONARY BALSAM sold readily at Clyde, and said: "If the statements of some of our most respectable people, and personal, valuable knowledge, can be relied on, its medical virtues have cured many *consumptive persons*, in the vicinity of Clyde. I am acquainted with, who were so by elevated sick as to be considered, by physicians and all friends, past a possibility of recovery, and yet, the facts are, BRANT'S BALSAM has restored them to PERFECT HEALTH."

LUNGS BLED—MUST DIE!

MR. T. S. TERRY, *merchant, Byron, Genesee county, N. Y.*, wrote, August 24, 1848: "BRANT'S MEDICINE is doing wonders here. It has cured a man of *Consumption* that the physicians had said *must die*. When he commenced taking Brant's Medicine, he could not raise his hand to his head; he *bled at the lungs*, and every exertion seemed to indicate that he must die; yet he is now able to do all his work, and rides all over our country. He used *only five bottles*. It has also cured a young lady of Consumption, in Orleans county, which her father says no doctor could cure."

MR. MILLER, a merchant of the same place, has certified to the truth of the above statement.

Was believed past Cure!

MR. CORNELIUS H. SMITH, merchant, *Collins Centre, Erie Co., N. Y.*, January 26, 1849, said: "Your BRANT'S INDIAN PULMONARY BALSAM and BRANDRETH'S PURIFYING EXTRACT are nearly all sold, and I want immediately another supply, for they sell more rapidly, and give better satisfaction, than all the other medicines we have from a bed of *apparent* consumptive sickness, which all near me with a *consumption of the lungs*. After I had pronounced the case HOPELESS, she commenced taking *BRANT'S BALSAM*—and now she is well."

CHRONIC DYSENTERY,

and SUMMER COMPLAINTS, in children of every persons, cured without any failure whatever. Also—

CHOLERA INFANTUM

No mother need ever mourn the death of her child by that child-destroying complaint, when treating in warm weather—*Cholera Infantum*, or what is called SUMMER COMPLAINT—if BRANT'S PULMONARY BALSAM" *once*, be used in *little teaspoonfuls* in the directions on each bottle prepared, and the directions on the wrapper.

DOCTORS CALL IT WONDERFUL!

DOCT. IRA JOHNSON, *of Lexington, Greene Co., N. Y.*, wrote to us, January 1st, 1849: I became acquainted with some of the astonishing effects of your BRANT'S INDIAN PULMONARY BALSAM, by having witnessed some most wonderful cures of Consumption produced by them, in Montrose, Sullivan Co., New York about a year since; and have since felt anxious that its great efficacy might become more generally known. The last summer I had a brother-in-law quite sick with consumption, and I felt confident from what I had seen of the efficacy of BRANT'S BALSAM, that if I could procure it for his use, it would cure him; and as we could not find it in this county, I went to Sullivan county, about twenty miles, and purchased several bottles; my brother-in-law then very much afflicted with pain in the breast and side, and with such a stricture and tightness across his chest, that he breathed with great difficulty. He used one bottle of the medicine that I brought, and it gave immediate relief, and cured him. My wife has used another bottle, and she says it has done her more good than all the other medicines she ever took. From the benefit those persons have derived, and from my recommendations, from what I had personally heard and seen of its good works, many persons here are now making the medicines; and as there is no agent in this town, they have requested me to write for an agency.

Yours, respectfully, IRA JOHNSON.

DR. CHRISTIE'S
GALVANIC BELT, BRACELET
NECKLACE
AND
MAGNETIC FLUID

For the Removal and Permanent Cure of all NERVOUS DISEASES,

And of those Complaints which are caused by an impaired, weakened or unhealthy condition of the NERVOUS SYSTEM.

This beautiful and convenient application of the mysterious powers of GALVANISM and MAGNETISM, has been pronounced by distinguished physicians, both in Europe and the United States, to be the *most valuable medical discovery of the Age*.

Dr. CHRISTIE'S GALVANIC BELT
AND
MAGNETIC FLUID,

is used with the most perfect and certain success in all cases of

GENERAL DEBILITY,

Strengthening the weakened body, giving tone to the various organs, and invigorating the entire system. Also in FITS, CRAMP, PARALYSIS and PALSY, DYSPEPSIA or INDIGESTION, RHEUMATISM, ACUTE and CHRONIC GOUT, EPILEPSY, LUMBAGO, DEAFNESS, NERVOUS TREMORS, PALPITATION OF THE HEART, APOPLEXY, NEURALGIA, PAINS in the SIDE and CHEST, LIVER COMPLAINT, SEXUAL COMPLAINT, and CURVATURE of the SPINE, HIP COMPLAINT, DISEASES of the KIDNEYS, DEFICIENCY OF NERVOUS and PHYSICAL ENERGY, and all NERVOUS DISEASES, which complaints arise from one simple cause—namely,

A Derangement of the Nervous System.

☞ In NERVOUS COMPLAINTS, Drugs and Medicines *torture the patient*, for they weaken the vital energies of the already prostrated system; while under the strengthening, life giving, vitalizing influence of Galvanism, as applied by this beautiful and wonderful discovery, the exhausted patient and weakened sufferer is restored to former health, strength, elasticity and vigor.

The great peculiarity and excellence of

Dr. Christie's Galvanic Curatives,

consists, in the fact that they arrest and cure disease by *outward application*, in place of the usual mode of drugging and physicking the patient, till exhausted Nature sinks hopelessly under the infliction.

They strengthen the whole system, equalize the circulation of the blood, promote the secretions, and never do the slightest injury under any circumstances. Since their introduction to the United States, only three years, more than 60,000 persons have used them.

60,000 Persons

including all ages, classes and conditions, among which a large number of ladies, who are peculiarly subject to Nervous Complaints, have been

ENTIRELY AND PERMANENTLY CURED,

when all hope of relief had been given up, and every thing else been tried in vain!

To illustrate the use of the GALVANIC BELT, suppose the case of a person affected with that bane of civilization, DYSPEPSIA, or any other Chronic or Nervous Disorder. In ordinary cases, stimulants are taken, which, by their action on the nerves and muscles of the stomach, afford *temporary* relief, but which leave the patient in a lower state, and with injured faculties; after the action thus excited has ceased. Now compare this with the effect resulting from the application of the GALVANIC BELT. Take a Dyspeptic sufferer, even in the worse symptoms of an attack, and turn to the Belt around the body, using the Magnetic Fluid as directed. In a short period the insensible perspiration will act on the positive element of the Belt, thereby causing a Galvanic circulation which will pass on to the negative, and thence back again to the positive, thus keeping up a continuous Galvanic circulation throughout the system. Thus the most severe cases of DYSPEPSIA are PERMANENTLY CURED. A FEW DAYS IS OFTEN AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS.

CERTIFICATES AND TESTIMONIALS

Of the most Unfeabled Character,

AN EXTRAORDINARY CASE,

which conclusively proves that

'Truth is stranger than Fiction."

The following letter, narrating one of the most remarkable events in the annals of Medical Science, is from the

Rev. Dr. Landis, a Clergyman

of New Jersey, of distinguished attainments and exalted reputation:

SIDNEY, New Jersey, July 12, 1843

DR. A. H. CHRISTIE—Dear Sir: You wish to know of me what has been the result in my own case, of the application of THE GALVANIC BELT AND NECKLACE. My reply is as follows:

For about *twenty* years I had been suffering from Dyspepsia. Every year the symptoms became worse, nor could I obtain permanent relief from any course of medical treatment whatever. My physicians were skillful and excellent men, but here their prescriptions failed. About *fourteen* years since, in consequence of frequent exposure to the weather, in the discharge of my pastoral duties, I became subject to a severe Chronic Rheumatism, which, year after year, caused me indescribable anguish. In the severer paroxysms, the skill of my physicians sometimes afforded me great relief; but this relief was only temporary. Further: in the winter of '45 and '46, in consequence of preaching a great deal in my own and various other churches in this region, I was attacked by the Bronchitis, which soon became so severe as to require an immediate suspension of my pastoral labors. My nervous system was now thoroughly prostrated, and as my Bronchitis became worse, so also did my Dyspepsia and Rheumatic affections, thus evincing that these disorders were connected with each other through the medium of the Nervous System. My inderings were indeed severe, and I had no prospect other than being entirely laid aside from the discharge of those duties, and the performance of those labors in which my soul has ever found the highest of her joys.

But reasoning from effect to cause, I concluded that the *Nervous System* must be reached before any hope could be indulged of my obtaining relief from these most distressing maladies. In the whole pharmacopœia there seemed to be no remedial agent which could reach and recuperate my Nervous System; every thing that I had tried for this purpose had completely failed. About *twenty* of my friends to examine your inventions, and through them my very anxious inquiries respecting their efficacy. I determined to try the effect of the application of the GALVANIC BELT AND NECKLACE, with the MAGNETIC FLUID. This was in June, 1843. To my great astonishment, in two days my Dyspepsia had gone; in eight days I was enabled to resume my pastoral labors; on account of the Dyspepsia, and my Rheumatic affection also ceased to trouble me. If time permitted, I could fill a sheet of paper with the details of particulars, but I can now only furnish this brief abstract. My Dyspepsia has never returned; the Rheumatism once in a while visits me, but not severely, and its hold upon my system, and my Bronchial affection is *entirely cured*. Such is the wonderful and happy result of the experiment.

I have recommended the BELT and FLUID to many who have been likewise suffering from Neuralgic affections. They have tried them, with happy results, I believe in every case.

I am, dear sir, very respectfully yours,

ROBERT W. LANDIS

DR. HOOFLAND'S
CELEBRATED GERMAN BITTERS,

Prepared by

DR. C. M. JACKSON,

AT THE GERMAN MEDICINE STORE,

120 Arch Street, Philadelphia.

Their power over the above diseases is not excelled—if equalled—by any other preparation in the United States, as the cures attest, in many cases after skillful physicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are without, safe, certain and pleasant.

READ AND BE CONVINCED.

Chas. Robinson, Esq., Boston, Md., in a letter to Dr. Jackson, January 9, 1850, said:—

"My wife and myself have received more benefit from your medicine than any other we have ever taken for the Dyspepsia and Liver disease."

"The Tenth Legion," published at Woodstock Vt., January 10, 1850, said:—

"A GREAT MEDICINE."

"We have until now refrained from recommending to the public any of the various Patent Medicines of the day, unless thoroughly convinced of their value. Among those we consider worthy of notice is the *German Bitters*, invented by Dr. Hoofland, and prepared by Dr. Jackson, in Philadelphia. One instance in particular, in which the superior virtues of this medicine has been tested, has fallen under our observation. During the last summer, a son of Mr. Abraham Crabill, of this county, was very seriously afflicted with Liver Complaint, and after trying in vain various remedies, he purchased a bottle of the Bitters, and after using it, was so much relieved of his distressing malady, that he procured another bottle, and is restored to perfect health.

READ FURTHER A FEW FACTS

From "The Weldon Herald," published at Weldon, N. C., January 25, 1850, which said:—

"*Patent Medicines.*"

"It is very seldom that we make any allusion to Patent Medicines, either approving or otherwise. Unfortunately for the country, and for honest and conscientious inventors and vendors of these medicines, the land is becoming flooded with quack preparations, that are made alone for profit, and are fit not even for the dogs. In this state of things it is hard to tell which are, and which are not worth having. If a person gets an indifferent medicine the first time he purchases, he is very apt to condemn the whole of them and buy no more, and inventors must only blame those of their number, (who ignorantly combine plain medicines together for the purpose of making money) for the ill success which attends the effort of the deserving."

"We believe Dr. C. M. Jackson's 'Hoofland's German Bitters,' to be a most excellent medicine, and one that should be highly popular in these days of Temperance—for they are altogether Vegetable in their composition, without one drop of Alcoholic Spirits in them. This medicine is innocent, but strengthening in its effects, and justly deserving of an unbounded popularity, which, when it becomes known, it will, no doubt, fully enjoy."

Judge M. M. Noah said, in his "Weekly Messenger," January 6, 1850,

"*Dr. Hoofland's German Bitters.*—Here is a preparation which the leading presses in the Union appear to be unanimous in recommending, and the reason is obvious. It is made after a prescription furnished by one of the most celebrated physicians of modern times—the late Dr. Christopher Wilhelm Hoofland, professor to the University of Jena, private physician to the king of Prussia, and one of the greatest medical writers Germany has ever produced. He was emphatically the enemy of humbug, and therefore a medicine of which he was the inventor and celebrator may be confidently relied on. He specially recommended it in Liver Complaint, Dyspepsia, Debility, Vertigo, Acidity of the Stomach, Constipation, and all complaints arising from a disordered condition of the stomach, the liver and the intestines. Nine Philadelphia papers express their conviction of its excellence, and several of the editors speak of its effects from their own individual experience. Under these circumstances, we feel warranted, not only in calling the attention of our readers to the present proprietor's (Dr. C. M. Jackson's) preparation, but in recommending the article to all afflicted."

MORE EVIDENCE.

The "Philadelphia Saturday Gazette," the best family newspaper published in the United States. The editor says of

DR. HOOFLAND'S GERMAN BITTERS:

"It is seldom that we recommend what are termed Patent Medicines to the confidence and patronage of our readers; and, therefore, when we recommend Dr. Hoofland's German Bitters, we wish it to be distinctly understood that we are not speaking of the nostrums of the day, that are noised about for a brief period and then forgotten after it has done its guilty work of mischief, but of a medicine long established, universally prized, and which has met the hearty approbation of the faculty itself."

Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the last three years, and the strongest testimony in its favor, is, that there is more of it used in the practice of the regular Physicians of Philadelphia, than all other nostrums combined, a fact that can easily be established, and fully proving that a scientific preparation will meet with their quiet approval when presented even in this form.

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt after using it as directed. It acts specifically upon the stomach and liver; it is preferable to calomel in all bilious diseases—the effect is immediate. They can be administered to a *female or infant* with safety and reliable benefit, at any time.

BEWARE OF COUNTERFEITS.

This medicine has attained that high character which is necessary for all medicines to attain to induce counterfeiters to put forth a spurious article, at the risk of the lives of those who are innocently deceived.

Look well to the marks of the genuine.

They have the written signature of C. M. JACKSON upon the wrapper, and the name blown in the bottle, without which they are spurious.

LIGHT! LIGHT!

The Handsomest, Cheapest, and Best Article for Light, is

MARSH'S PATENT OIL.

THIS is a new invention, recently introduced, and now very extensively used by the public.

Mr. Marsh is constantly receiving, [both at home and from abroad,] the very highest testimonials of the true merits and great superiority of his new Oil, over everything before used for light.—Among them we select the following:

MARSH'S PATENT OIL.—This is the name given to a newly invented Oil, for producing light, which has just been introduced to the public by Mr. Marsh. Having tried it ourselves, we can speak from experience, and do not hesitate to award it a high order of merit. It is entirely free from grease or smell while burning, and is not liable to the too common objection of above all burning fluids, that of explosion. It gives
